

Secarna Pharmaceuticals “Secarna” is the leading independent European antisense drug discovery company with multiple innovative antisense therapies in various stages of pre-clinical development in the areas of oncology/immuno-oncology, immunology, as well as inflammatory, fibrotic, neurodegenerative and cardiometabolic diseases. Founded in 2015 by an experienced management team, we are now proud to have established our discovery and development unit at the IZB Martinsried (near Munich) – one of Germany’s most vibrant biotechnology clusters.

We are looking for a

(Senior) Scientist Immuno-Oncology (f/m/d)

to be part of the R&D Preclinical Development team.

Your tasks will be to:

- Establish, carry out and report cell-based screens to identify compounds specifically targeting disease-relevant molecular targets for in-house or partnered projects
- Use your scientific expertise to further characterize the compounds in cell-based assays and to design and conduct in vivo studies with external partners
- Independently plan projects and execute them
- Write patents and SOPs if needed
- Present your results internally and externally

Your profile:

- PhD in Immunology, cell or molecular biology, biochemistry, or a related field with strong focus on Immuno-Oncology
- Expertise in cell biological, molecular biological and biochemical techniques
- Extensive hands-on expertise in multicolor flow cytometry is a prerequisite, experience in immunohistochemical methods would be considered advantageous
- Excellent communication and documentation skills in English and German
- Ability to coordinate multiple projects within the team and with external partners

**What you can expect:**

- A dynamic and enthusiastic team working within a flat hierarchy (direct contact to management)
- A competitive salary and 30 days of holiday / year
- The unique opportunity to meaningful contribute to the development of future medicines
- Excellent technically equipped working spaces and the possibility to work from home
- Free drinks
- The opportunity to attend international conferences with (poster) presentations
- Collaborations with worldwide prestigious Scientists

Are you interested in working with us? Then we are looking forward to receiving your application via the [online portal](#).
